Social Science k	Rights, roles, and responsibilities shape our identity and help us build healthy relationships with others	X	X	X		X	X											X					Social Science k	
Social Science 1	We shape the local environment, and the local environment shapes who we are and how we live.			X		X	X	X		X							X	X					We shape the local environment, and the local environment shapes who we are and how we live.	Social Science 1
	Our rights, roles, and responsibilities are important for building strong communities.	X		X		X	X	X		X							X	X					Our rights, roles, and responsibilities are important for building strong communities.	
	Healthy communities recognize and respect the diversity of individuals and care for the local environment.	X	X	X		X	X	X		X								X					Healthy communities recognize and respect the diversity of individuals and care for the local environment.	
Social Science 2	Local actions have global consequences, and global actions have local consequences	X		X	X	X	X	X	X	X	X							X		X	X		Local actions have global consequences, and global actions have local consequences	Social Science 2
	Individuals have rights and responsibilities as global citizens	X		X	X	X	X	X	X	X	X						X	X			X	X	Individuals have rights and responsibilities as global citizens	
	Canada is made up of many diverse regions and communities																			X	X		Canada is made up of many diverse regions and communities	
Social Science 3																								Social Science 3
Social Science 4	The pursuit of valuable natural resources has played a key role in changing the land, people, and communities of Canada.					X		X	X				X	X	X		X	X	X	X	X		The pursuit of valuable natural resources has played a key role in changing the land, people, and communities of Canada.	Social Science 4
Social Science 5	Natural resources continue to shape the economy and identity of different regions of Canada.												X	X	X	X	X	X	X	X	X		Natural resources continue to shape the economy and identity of different regions of Canada.	Social Science 5
Social Science 6	Economic self-interest can be a significant cause of conflict among peoples and governments					X							X	X	X	X	X	X	X	X	X		Economic self-interest can be a significant cause of conflict among peoples and governments	Social Science 6
	Complex global problems require international cooperation to make difficult choices for the future.					X			X			X	X	X	X	X	X	X	X	X	X		Complex global problems require international cooperation to make difficult choices for the future.	
	Media sources can both positively and negatively affect our understanding of important events and issues.					X			X				X	X	X	X	X	X	X	X	X		Media sources can both positively and negatively affect our understanding of important events and issues.	
	Systems of government vary in their respect for human rights and freedoms.								X				X	X	X	X	X	X	X	X	X		Systems of government vary in their respect for human rights and freedoms.	
Social Science 7																								Social Science 7
Social Science 8	Human and environmental factors shape changes in population and living standards					X	X	X	X				X	X					X	X	X		Human and environmental factors shape changes in population and living standards	Social Science 8

Science k	Plants and animals have observable features		X			X	X	X															Science k	
	Daily and seasonal changes affect all living things.		X			X	X	X																
Science 1	Living things have features and behaviours that help them survive in their environment		X	X		X	X	X	X	X													Living things have features and behaviours that help them survive in their environment	Science 1
Science 2	Water is essential to all living things, and it cycles through the environment (science)	X	X	X	X	X	X	X	X	X							X	X			X	X	Water is essential to all living things, and it cycles through the environment (science)	Science 2
	All living things have a life cycle		X	X	X	X	X	X	X	X				X			X	X	X	X	X		All living things have a life cycle	
Science 3	Living things are diverse, can be grouped, and interact in their ecosystems		X			X	X	X	X	X				X			X	X	X	X	X		Living things are diverse, can be grouped, and interact in their ecosystems	Science 3
Science 4	All living things and their environment are interdependent		X	X		X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X		All living things and their environment are interdependent	Science 4
	Multicellular organisms have organ systems that enable them to survive and interact within their environment.					X	X	X	X	X	X	X	X	X			X	X	X	X	X		Multicellular organisms have organ systems that enable them to survive and interact within their environment.	
Science 5	Humans use earth materials as natural resources.					X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X		Humans use earth materials as natural resources.	
	Multicellular organisms rely on internal systems to survive, reproduce, and interact with their environment.					X	X	X	X	X				X	X		X	X	X	X	X		Multicellular organisms rely on internal systems to survive, reproduce, and interact with their environment.	
Science 6	The theory of evolution by natural selection provides an explanation for the diversity and survival of living things					X	X	X	X					X	X		X	X	X	X	X		The theory of evolution by natural selection provides an explanation for the diversity and survival of living things	Science 6
Science 7	Earth and its climate have changed over geological time.																						Earth and its climate have changed over geological time.	Science 7
